

RIGHTSTAR

Add-On Apps for BMC Solutions

Enhance your BMC
implementation with
powerful add-on
integrated solutions

RightStar PKISSO AREA Connector

Allows user to easily access secure BMC Remedy applications by authenticating them from credentials extracted from Common Access Cards (CAC), PIV, PKI client certificates or external Single Sign On (SSO).

RightStar DataSync Data Management

A simple yet powerful means to manage your data through sophisticated data processing tools, methods and processes.

RightStar ScanStar Barcode for IT Asset Management

Track your fixed assets quickly and accurately in BMC Remedy, Remedyforce, or FootPrints Service Core with RightStar's ScanStar barcode scanning integration.

RightAnswers Knowledge Management

RightAnswers delivers a cloud-based knowledge management platform to optimize IT support operations and enhance the user experience.

Nlyte Data Center Infrastructure Management

Nlyte DCIM products manage your data center infrastructure with predictive intelligence and the management controls you need to improve operational excellence, reduce risks and achieve more agile, efficient and highly available data centers.

Bomgar Remote Control Support

Bomgar enables support representatives to access, diagnose, control and fix remote computers and mobile devices - including Android, iPhone, iPad, BlackBerry and Windows Mobile.

Hitachi Enterprise Identity Management

Comprehensive identity management and access governance, privileged access management and password management solutions.

xMatters Automated IT Notification and Conferencing

Target two-way communications throughout the extended enterprise. Integrates with multiple BMC solutions.

Box Cloud Content Management

Box acts as your online content management solution. Use it to store, share, and collaborate on any kind of document or media file.

Cloud Coach Project Management

Designed to integrate with BMC Remedyforce, Cloud Coach offers a suite of productivity tools that makes managing projects significantly easier.

We put the "it" in IT Management
